

MUHAMMAD ABRAR

Sheikhupura, Pakistan | abrarmughal.me
03184472837 | abrarmughal4480@gmail.com

My career goal is to build intelligent digital products and growth-driven systems that combine technology with real business impact. Having worked in SEO, YouTube growth, and digital optimization, I've developed a strong interest in solving problems through automation, analytics, and modern web technologies. I'm now focused on expanding my skills toward development and AI-powered solutions where I can not only build software but also improve performance, scalability, and user experience.

EXPERIENCE

SOFTWARE DEVELOPER

Freelance / Independent Projects

2025 – PRESENT

Developed full-stack applications using the MERN stack, delivering scalable and responsive solutions across web, mobile, and desktop platforms. Translated business requirements into optimized technical solutions, improving performance, usability, and functionality through strong problem-solving and modern development practices.

WEB DEVELOPER

Project-Based Development

2023 – 2025

Designed and developed dynamic websites with PHP, MySQL, HTML, CSS, and JavaScript. Built backend logic, databases, and UIs while optimizing performance.

JUNIOR DEVELOPER

Self-Directed & Academic Projects

2022 – 2023

Explored programming fundamentals, built projects with React, and developed strong analytical skills through hands-on learning.

EDUCATION

BACHELOR OF COMPUTER SCIENCE

Riphah International University

SEPTEMBER 2024 - PRESENT

- Active member of the university's Programming Club and collaboration in development projects
- Relevant coursework: Data Structures, Algorithms, Web Development, Database Systems
- GPA 3.85

SKILLS

- MERN Stack (MongoDB, Express.js, React, Node.js)
- Full-stack Development & Backend Architecture
- React.js & Modern Web Frameworks
